PROFESSIONAL SUMMARY

Detail-oriented career changer with a background in Learning and Development, seeking an entry-level role in cybersecurity or IT support. Holds Google Professional Certificates in Cybersecurity and IT Support, with hands-on practice in Linux, Python, log analysis, and security risk assessment through coursework and guided labs. Brings experience in data annotation, instructional content development, and documentation, alongside strong analytical and communication skills.

Languages: Thai (Native), English (C1 - EF SET Certified), Italian (B1 - CILS Certified), German (A1 - Currently studying).

CERTIFICATES & TRAINING

- Google Cybersecurity Professional Certificate – Google (2026)
- Google IT Support Professional Certificate – Google (2026)
- Cybersecurity Case Studies and Capstone Project – IBM (2026)
- Hands-on Introduction to Linux Commands and Shell Scripting – IBM (2026)
- Python for Everybody Specialization – University of Michigan (2025)
- Foundations of Project Management – Google (2026)

TECHNICAL SKILLS

- **Cybersecurity & Network Analysis:** Intrusion Detection Systems (IDS), Suricata & Custom Rule Writing, SIEM fundamentals, Network Traffic Analysis (tcpdump), Packet Capture & Filtering, Security Risk Assessment, Cryptography (SHA-256, OpenSSL), File Integrity Verification.
- **Log Analysis & Database:** QL, SQLite, Data Filtering & Querying, Log Parsing & Analysis (JSON, jq, Fast.log), Network Log Investigation.
- **IT Support & Tools:** Git, GitHub, Troubleshooting, IT Systems Administration.
- **Programming & Scripting:** Python (Automation, Data Parsing), Linux CLI, Bash Shell Scripting, Command-line Utilities (grep, awk, I/O Redirection).
- **Security Documentation & reporting:** Security Audit Reporting, Vulnerability Assessments, Incident Handler's Journals, Data Annotation, Digital Documentation.
- **Core Competencies:** Cross-functional Communication, IT & Security Awareness Training, User-Centric Problem Solving, and Large-scale Systems Thinking.

PRACTICAL COURSEWORK & PROJECTS

Security & Threat Assessment | Cybersecurity Coursework

- Conducted mock security audits using the NIST framework, drafted risk assessments, and recommended basic controls (e.g., Least Privilege, MFA).
- Analyzed security case studies and sample logs to identify suspicious activity.

Linux Automation & Scripting | Guided Labs

- Created Bash scripts and utilized Linux CLI to automate file organization and manage directories.
- Practiced network traffic analysis (tcpdump) and file integrity verification (SHA-256 hashes) on simulated network logs.

Python Data Parsing & Validation | Coursework

- Developed Python scripts to automatically parse, extract, and update authorized IP addresses from text files.
- Applied basic validation checks to assess data accuracy and consistency.

EXPERIENCE & CAREER DEVELOPMENT

Career Development | Duisburg, Germany

Sep 2025 - Present

- Completed certificates, guided labs, and practical coursework in cybersecurity, IT support, Linux, and Python while transitioning into the IT sector following relocation to Germany.

Freelance Learning Designer & AI Data Annotator | Parma, Italy

Jan 2021 - Aug 2025

- **Instructional Design:** Collaborated with the Thai Ministry of Education to design 10 high school instructional modules, including manuals, activities, and assessments across 4 core subjects.
- **AI Data Annotation:** Recorded and annotated 100+ Thai audio data points to train and validate AI natural language processing models.

Human Resources – Learning & Development (Internship)

Nov 2020 - Jan 2021

PANDORA Production Co., Ltd. | Bangkok, Thailand

- **UX Design & Resource Management:** Designed a library-style booking and inventory system concept to track HR training equipment, supporting a manufacturing facility of 5,000+ employees.
- **Interactive E-Learning & Gamification:** Developed a specialized "English for Work" module using animated media and gamified assessments (CAI) to teach technical jewelry manufacturing vocabulary to factory staff.
- Maintained and updated the corporate training database, supporting accurate records and organizational requirements.
- Supported training systems and digital knowledge-sharing platforms.

EDUCATION

B.A. in Learning Sciences and Education (First-class honors)

Aug 2017 - Jun 2021

Thammasat University - Bangkok, Thailand
